

A GBA-sized game, not a resized mockup.

Eight committed presentation rounds. Ten preselected comparisons. The strict Wario Land 4 superiority target remains open.

PRE-GBA V6

240 x 160

native world and bitmap UI

10

preselected pairs retained

The strongest changes are a real low-resolution framebuffer, exact integer pixel blocks, consistent lettering, readable state, distinctive cure objects and stronger scenic framing. The work is in the playable native build.

CURRENT SCORED WORLD FRAME / P7

0 / 10

strict four-dimension sweeps

The benchmark still leads. More coherent rendering has not supplied the hand-authored foreground composition, expressive character posing and distinctive moving machinery that these comparisons demand.

How these comparisons were made.

The grades are one reviewer's ordinal still-image judgements, not an objective instrument or a human panel.

KEEP THE SAMPLE

The ten stage/reference pairs were fixed before this continuation. The original camera centres and lenses remain alongside explicitly labelled tighter GBA views. The image aspect changes to 3:2; old lens does not imply an identical crop.

USE REAL PIXELS

The images are native Unity backbuffers or attributed real WL4 screenshots. Nintendo images are comparison-only outside Assets. No generated poster or repainted screenshot counts as implementation.

SEPARATE EVIDENCE

Art fixtures stage a body/form and camera. Actual input-driven action and complete earned-save route tests are different evidence. A screenshot count is not proof of quality or playability.

DO NOT OVERGRADE

Still images cannot certify animation feel, camera comfort, human comprehension or horror effectiveness. A more complex image is not automatically better.

TIES ARE NOT WINS

Every dimension must be strictly ahead in every selected pair. One lost dimension keeps the strict gate open. No difficult example was removed.

SCORE ANCHORS

0 missing/broken / 1 placeholder / 2 readable but crude / 3 coherent development art / 4 polished professional / 5 exceptional authored example. Half-point increments; means are not percentage improvements.

The benchmark is still ahead.

Order: style / character / clarity / polish. Means summarize ordinal judgements and are not laboratory measurements.

SCENE	PRE-GBA V6	CURRENT P7	WL4	VERDICT
01 Sunday Best	2.5 / 2.5 / 2.5 / 2.5	3.5 / 3 / 4 / 3.5	4.5 / 4.5 / 4.5 / 4.5	WL4

10 The Host of Hosts	2.5 / 2.5 / 2.5 / 2.5	3.5 / 3.5 / 3 / 3.5	5 / 5 / 4.5 / 5	WL4
MEAN OF40 GRADES	2.5 / 5	3.3 / 5	4.6 / 5	UNMET

Every pass exposed the next weakness.

Builds, original failures, screenshots, scripts and source identities are retained. New does not automatically mean better.

P1**One real pixel system**

Native240x160 framebuffer, original bitmap HUD/menu text, integer display and stronger contact edges.

P2**Objects and state**

Distinct parade fronts, cure objects, plate/lever state, cathedral interior and conserved-form status.

P3**Repair observed failures**

Restore missing world signs; correct clipped F1 text, menu footer and unpainted outer borders.

P4**Frame complete compositions**

Reveal the full orchard canopy, fallen city, rose windows and illuminated page instead of giant cropped fragments.

P5**Material and character**

Interlocking falling bodies; asymmetrical final entity; more explicit ivory/gold/violet architecture.

P6**Contain the apparition**

Keep the distant noncolliding manifestation legible inside the unchanged view; actual boss collider untouched.

P7**Preserve landing space**

Move the form card away from the floor. Add read-only backbuffer observation during actual input-driven action.

P8**Finish the ending text**

Actual package screens exposed clipped final sentences. Short display copy now fits; the restoration rule is unchanged.

Sunday Best

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / PALM TREE PARADISE

STYLE	CHARACTER	CLARITY	POLISH
4.5/5	4.5/5	4.5/5	4.5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3.5/5	3/5	4/5	3.5/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

- Improved.** The cheerful fronts read as constructed parade scenery, with bright walking edges and a compact pixel HUD.
- Still behind.** WL4 has stronger organic texture, depth separation and character posing.
- Next work.** Author varied cardboard fronts and backstage construction details.

The Puppet Laundry

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / THE CURIOUS FACTORY

STYLE	CHARACTER	CLARITY	POLISH
4.5/5	4.5/5	4.5/5	4.5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3/5	3/5	3.5/5	3/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Pear Tree Gallows

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / WILDFLOWER FIELDS

STYLE	CHARACTER	CLARITY	POLISH
4.5/5	4.5/5	4.5/5	4.5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3.5/5	3/5	3.5/5	3/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Tenement of Two Suns

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / CRESCENT MOON VILLAGE

STYLE	CHARACTER	CLARITY	POLISH
4.5/5	4.5/5	4.5/5	4.5/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Improved. The slanted city composition and Censer field radius are visible.

Still behind. The retained warning-phase frame is sparse; it does not explain its ecology as clearly as the lava reference.

Next work. Author warning, falling and kneeling poses, and judge their whole actual motion sequence.

Cathedral in Freefall

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / HOTEL HORROR

STYLE	CHARACTER	CLARITY	POLISH
4/5	4.5/5	4.5/5	4.5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3.5/5	3/5	3.5/5	3/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Choir of Iron Halos

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / ARABIAN NIGHT

STYLE	CHARACTER	CLARITY	POLISH
4.5/5	4.5/5	4.5/5	4.5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3.5/5	3/5	4/5	3.5/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Scripture That Writes Back

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / PINBALL ZONE

STYLE	CHARACTER	CLARITY	POLISH
4.5/5	4.5/5	4/5	4.5/5

GLOOM BEAN / NATIVE P7

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

The Weight of Everyone

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / GOLDEN DIVA

STYLE	CHARACTER	CLARITY	POLISH
5/5	5/5	4.5/5	5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3.5/5	3.5/5	3/5	3.5/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Improved. Interlocking hoods, faces and limbs are rendered on the unchanged physical mass.

Still behind. Diva remains more expressive and composed; the relocated top HUD partly overlaps this high boss in the retained frame.

Next work. Author structural apparatus and crowd compression/impact/release poses; do not merely enlarge the portrait.

The Host of Hosts

Current world image: native P7, labelled GBA framing. The original wide-lens witness remains below. P8 changes ending text only.

WARIO LAND 4 / GOLDEN DIVA

STYLE	CHARACTER	CLARITY	POLISH
5/5	5/5	4.5/5	5/5

GLOOM BEAN / NATIVE P7

STYLE	CHARACTER	CLARITY	POLISH
3.5/5	3.5/5	3/5	3.5/5

PRE-GBA / SAME SCENE

P7 / ORIGINAL LENS RETAINED

VERDICT: NO FOUR-CRITERION SWEEP

Nintendo reference: comparative criticism only, never runtime art. P7 images are fixed-camera fixtures; input-driven action is separate.

Staged art fixtures are not gameplay proof.

These frames were captured during production-input witnesses, with normal simulation and enabled camera follow. No actor or time was staged by the observer.

Actual jump; field contracts.

Falling figures become supports.

Real final-boss adaptation.

Real final combination circuit.

Correct pixels are necessary, not sufficient.

This is a Unity Windows development game with a GBA-style presentation, not a GBA ROM or a hardware-emulation claim.

240 x 160

Actual point-filtered render target and bitmap UI; no mixed-resolution gameplay heading.

Integer scaling

1280x800 produces 1200x800 at 5x; an actual 1274x783 client uses 960x640 at 4x with letterboxing.

Failing controls

The auditor rejects a changed subpixel, blurred pixels and an empty frame; valid odd-size client passes.

Protected logic

154 protected runtime sources, MovementTuning, Boot, Packages and ProjectSettings remain unchanged. Reviewed rendering/test edits and actual gameplay are separate evidence.

VERIFICATION OUTCOMES

Full GBA P4 campaign

54/54 scenarios PASS, including five expected negatives and genuine earned 20-level/five-boss chains. Only 20 Mercies restores the ending.

P7 focused rendering and gameplay

6/6 PASS: mechanics 313; opening 87 reported checks; Mirror 47, Ink 97, Choir 48 and Weight 104. No unexpected failures.

Native pixel / keyboard review

20 P7 + 20 P8 fixtures and 14 P7 keyboard/UI frames pass exact pixel checks. Ten collision inventories unchanged; five oracle controls.

Protected source

154 protected runtime files and tuning/Boot/packages/settings unchanged. Explicit rendering/test paths reviewed separately.

Exact final P8 ZIP

All 155 payload hashes verified. Actual 0/19/20-Mercy boss victories 51/54/54 passed using unchanged earned P4 seeds. P8 only fixes displayed ending copy.

P4's complete 54-case run belongs to its pinned source. P7 rendering has a separate focused suite and frozen-package runs; P8 is an ending-copy-only correction with its own exact-package ending proof. No earlier certificate is silently relabelled.

The next work is authorship, not resolution.

The all-example superiority gate remains open. These improvements are specified without changing the original game requirements.

1

Foreground form and machinery

Author actual laundry cars, weight-bearing branches, furnished rooms, articulated joints and slab/catch apparatus. Preserve the real collision boundaries.

2

Expressive action poses

Build silhouettes for anticipation, impact, recovery and transformations. Review real motion, not a bigger portrait.

3

Visible game rules

Make cures, sources, material state and force relationships readable without depending on memorized coloured labels.

4

Finish and re-score the same sample

Keep all ten pairs. Grade the weakest frames and actual action, not just flattering captures. Retain every loss until the art genuinely improves.

Verified: source publication, native GBA presentation, captured improvements and scoped software regression. **Not verified:** universal visual superiority, human controller feel, uncoached readability, animation quality, audio balance or horror effectiveness.

What is original, borrowed and only compared.

Runtime source, artwork provenance, reference images and grade data are committed separately so the comparison remains auditable.

Original project work. Player reference adaptation, possession features, bitmap alphabet, UI, cure objects, parade fronts, cathedral composition, falling-crowd/final-entity revision, code and authored interactions. Player animation remains procedural; no new hand-authored animation library is claimed.

Credited CC0 components. Selected environment fragments by Luis Zuno / Ansimuz. Author pages and archive hashes are retained in ArtSources/Ansimuz. Composed adaptations are not falsely described as wholly original source art. No third-party music, game code or character assets were imported.

Comparison only. Nintendo WL4 screenshots remain outside Assets. Exact filenames, URLs and hashes are retained in References/SOURCES.json.

Author source pages: opengameart.org/content/gothicvania-town; gothicvania-patreons-collection; gothicvania-church-pack. Nintendo GBASP hardware documentation specifies a240x160 screen. This project does not claim the original hardware's memory or scanline constraints.
